

# WHISTLER GOLF CLUB GROUP OUTINGS 2010

[whistlergolf.com](http://whistlergolf.com)

# WELCOME TO THE WHISTLER GOLF CLUB

Welcome to the Whistler Golf Club – Whistler’s number one choice for group golf outings! You’ll notice the difference in a Whistler Golf Club outing from the first moment you meet a Whistler Golf Club team member. You feel it the minute you approach the Clubhouse – classic rock and roll playing, a guest host sporting a wide grin and a laid back Whistler attitude greets you and your guests, introduces herself, takes your clubs and acquaints your group with the Whistler Golf Club – Arnold Palmer’s first Canadian design.

While the spectacular view, signature design and uncompromising course conditioning are standard fare, it is the friendly, relaxed and helpful personality of the course staff that makes a Whistler Golf Club experience uniquely Whistler.

Located just an hour and a half north of Vancouver (120 km) or four hours from Seattle, Whistler defines mountain golf in a spectacular setting. We welcome you to the Whistler Golf Club – Palmer’s design. Whistler’s attitude.

## 1 DAY PRIOR TO TOTAL ENJOYMENT:

- ☐ Deliver all signage and any on-course materials to the Whistler Golf Club. Due to limited storage, we can not accept earlier deliveries and require everything to be removed within 24 hours of the event completion

## DAY OF:

- ☐ Have a great time! Let our staff take care of the day, so you can enjoy your guests and our golf club!

## PROUD TO BE GOING GREEN!

- The Whistler Golf Club is in the process of receiving full certification by the Audubon Cooperative Sanctuary System of Canada. The Audubon Cooperative Sanctuary Program for golf courses helps enhance wildlife habitats and protect natural resources for the benefit of people, wildlife and the game of golf. Achieving certification will demonstrate our leadership, commitment and high standards of environmental management.
- We work in conjunction with the Division of Fisheries and Oceans and the Whistler Fisheries Stewardship Group on Crabapple creek, which runs throughout our property. Crabapple Creek is a very important spawning ground in the Whistler valley for Trout and we are proud of the progress made on the golf course to enhance riparian and spawning areas in and out of the creek.
- We share our golf course with a valued member of our community, the black bear. The Whistler Golf Club is an active habitat for coyotes, beaver and black bears throughout the year. It provides a corridor through the Valley for the migration of transient bears and a sanctuary for resident bears. We work hard with the Whistler Bear Society to ensure bears have access to their natural food such as berries and skunk cabbage and absolutely no access to human food.
- We have a recycling program in place for all beverage containers, paper, cardboard, used oil, oil filters, plastic oil and pesticide containers, scrap metal and non food compost.
- In 2007 The Whistler Golf Club installed a new \$1.2 million irrigation system allowing us to isolate single sprinkler heads thus reducing water usage. We also have a fleet of Electric golf carts used on a daily basis with zero emissions.
- We follow an integrated pest management plan for turf grass managers from the Western Canadian Turf Grass Association and the Ministry of Agriculture in British Columbia. We adhere to all aspects of the Ministry of Water Land and Air Protection in British Columbia when it comes to applying pesticides.
- The Whistler Golf Club team is very proud to be part of an industry that is responsible for the environmental stewardship of over 310,000 acres of land in British Columbia (GroundWorks, 1999). We will continue to work hard to ensure that guests and the community will be able to enjoy a memorable golf experience along with the natural environment in Whistler for years to come.
